

## Residential Individual Support Plan (ISP) Virtual Training

### Sessions 2021 **Update**

### ODP Announcement 21-061

#### **AUDIENCE:**

Administrative Entities (AEs), Supports Coordination Organizations (SCOs), Providers of Residential Services in the Consolidated and Community Living Waivers

#### **PURPOSE:**

To announce **revisions to the remaining** schedule and registration **process** for the Residential ISP Staffing **full day virtual training sessions** during September and October 2021 as described in in [ODP Announcement 21-057](#). **Changes have been made based on current registration for the remaining sessions.**

#### **DISCUSSION:**

The full-day virtual training sessions are geared toward key residential provider and SCO staff who regularly attend team meetings, supervise staff who attend team meetings, or train staff that attend team meetings, and AE staff who review and approve plans. It is expected to be conducted in “mixed” audience groups (Provider, SCO, AE reps and Office of Developmental Programs’ staff) to better assure exposure to a variety of perspectives and roles.

One person per entity is invited to attend to provide a maximum of 30-35 people per session. Participants and their agencies will need to commit to the understanding that, upon completion, they will be a resource at their home agency. The training will be interactive. **If would you like to request additional participation from your agency, please contact your ODP regional lead listed at the bottom of this announcement.**

While the training is available to any AE, SCO, or provider representative, ODP strongly encourages any entity that did not have a representative at the prior 2019 training to register and attend.

All training participants must complete the following prerequisites located on MyODP on the course registration page.

Prerequisite to be completed prior to registration:

- Residential ISP Staffing: It's about the Person, Not the Numbers (2021)

Prerequisites available after registration that must be completed prior to attending the virtual training:

- Health Risk Screening Tool Webinar
- Addressing Day-to-Day Risk with the Team
- Foundation of Person Centered Thinking Mini Modules

Please review the schedule below for detailed information about dates and times.
